No. 699*B.*

FROM A. FORBES, ESQ.,

Secretary to the Board of Revenue, L.P.,

TO THE SECRETARY TO THE GOVERNMENT OF BENGAL

FINANCIAL DEPARTMENT.

Dated Calcutta, the 14*th August* 1882.

STATIONERY.

SIR,

I AM directed by the Board of Revenue to submit the following report on the working of the Stationery Department during 1881-82, so far as the transactions affect the Government of Bengal, together with the statements noted below—

H. A. COCKERELL, ESQ., C.S.I.

A.—Comparative statement shewing the quantity and value of each article of stationery issued in the years 1880-81 and 1881-82.

B.—Comparative statement of the total issues of stationery, contingencies, establishment, local purchases, &c., for the year 1881-82.

C.—Statement shewing the quantity and cost of Bally moonj, badami, brown cartridge, yellow, and blotting paper, and envelopes issued in 1881-82, in place of English papers and envelopes of the same size and description, and the saving effected.

D.—Comparative statement shewing the increase and decrease of the total value (not being less than Rs. 100 per annum) of stationery supplied to each office under the Government of Bengal.

It is to be observed that the values shewn in all of the above statements have been taken at 5 per cent. above the actual cost, with reference to the orders of the Comptroller-General noticed in paragraph 4 of last year's report.

2. The stationery stores for the year under review having been again obtained under the system of local contracts, as in the previous year, better means of comparison are afforded by the valuations having been made at the contract rates in Indian money for both years alike. The system of obtaining English stores through the Secretary of State for India has been reverted to under the orders of Government from the commencement of the current year (1882-83). In calling for and dealing with tenders for the supply of stationery for 1881-82, a similar procedure was adopted to that which was followed in respect of the previous year. In reply to the advertisements issued by the Superintendent, tenders were received from 21 firms, 11 of which belong to London, nine to Calcutta, and one to Manchester. The statement given on the margin shews the names of the firms which were successful in obtaining contracts and the value of articles contracted for by them. It will be seen that 10 of the London and five of the Calcutta competitors, and the Manchester firm succeeded in obtaining orders.

List of Contracts for 1881-82.

	NAMES of CONTRACTORS.	Contract value of the stores supplied.			Address.
		Rs.	A.	P.	
1.	James Spicer & Sons	4,68,519	13	6	London.
2.	William Watson	2,69,422	6	4	Ditto.
3.	John Dickinson & Co.	1,02,324	12	9	Ditto.
4.	Spicer Brothers	32,088	15	0	Ditto.
5.	D. M. Traill	21,697	8	0	Calcutta.
6.	T. E. Thomson & Co.	17,694	8	0	Ditto.
7.	T. H. Saunders & Co.	17,204	3	4	London.
8.	Wiggins, Teape & Co.	15,820	8	0	Ditto.
9.	Millington Hutton & Co.	15,147	14	8	Ditto.
10.	Grosvenor Chater & Co.	13,826	14	8	Ditto.
11.	Archibald Winterbottom	12,160	7	9	Manchester.
12.	Charles Morgan & Co.	1,332	6	8	London.
13.	Fornaro Brothers	906	14	6	Calcutta.
14.	F. Mardan & Co.	243	0	0	London.
15.	F. W. Heilgers & Co.	250	0	0	Calcutta.
16.	Amrito Lall Roy	36	0	0	Ditto.
	Total ...	9,88,676	5	2	

3. *Statement A.*—This statement exhibits the total quantity and value of each article of stationery issued from the Calcutta Store to offices in Bengal, as well as to the Government of India and other provinces.

According to this statement there was a net increase of Rs. 2,57,878-3-7 in the total value of stationery issued in 1881-82, as compared with the issues of 1880-81. The increase during the past year is chiefly perceptible, as shewn in the following abstract, in writing paper, printing paper, coloured paper, book-binding materials, and Bally badami paper :—

Abstract.

Articles.	Value of issues for 1880-81.	Value of issues for 1881-82.	Increase.	Decrease.
	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.

Deduct decrease	.....	.....	9,561 5 2	.....
Net increase	.....	.....	2,57,878 3 7	.....

4. The Superintendent of Stationery submits the following explanation regarding the increase and decrease shewn under the various headings in the above statement :—

(1) The increase under the head "drawing paper" and "drawing materials" is ascribed to larger issues to the Survey and Public Works Departments and the State Railways.

(2) About one-half of the increase under the head "writing paper" is attributed to larger supplies having been drawn by the Superintendents of Government Presses, India, Bengal, and North-Western Provinces. The remainder was due to the normal increase in correspondence generally. A certain amount of writing paper was also made over to the Superintendent of Printing, Bengal, to be bound into books in substitution for English-bound books.

(3) The increase under the head "printing paper" was very considerable, viz. Rs. 1,65,274-1-6, representing the value of 20,750 reams consumed in excess of the previous year. A part of this paper was issued as draft paper, for which 24lb cream-wove double foolscap, a more expensive paper, used to be supplied, and in which there has consequently been a reduced expenditure of 2,279 reams. The following abstract shews the value of printing paper used by the several Government presses during the last two years, and accounts for the bulk of the increase :—

Governments.	Issues in 1880-81. Rs.	Issues in 1881-82. Rs.
India Printing	1,19,822	1,79,240
Bengal ditto	1,64,107	1,92,300
North-Western Provinces and Oudh Printing	14,724	38,853
Central Provinces Printing	637	.....
Assam Printing	2,494	1,319
Punjab ditto	12,631	29,927
British Burmah Printing	5,400	8,326
Postal Press, Aligurh	26,337	42,125
Total ...	3,46,152	4,92,090

(4) The increased consumption under the head "coloured printing paper" was caused chiefly by the demands of the Postal Press, Aligurh, and in a less degree by those of the Superintendents of Government Printing, India and Bengal.

(5) The decrease under the head "other papers" was principally due to the reduced consumption of brown paper, which during, 1880-81, had been used to a considerable extent by the Superintendent of the Postal Press, Aligurh.

(6) There was a small increase under the head "writing materials," regarding which no explanation has been given.

(7) The increase under the head "book-binding materials" is due chiefly to the increased issue of marble paper, leather, and mill-boards to the Superintendents of Government Printing, India and Bengal, for binding books.

(8) There was a decrease under the head "bound books," which is attributed partly to the introduction of country-bound books in place of the expensive English-bound books, and partly to the very sparing issue of books larger than foolscap size.

(9) The increase under the head "miscellaneous articles" is ascribed chiefly to the larger demands for the following articles:—viz. printing ink, parchment, gum-arabic, sealing-wax, red tape, candles, gold-leaf, eyelets, and envelopes made by the Superintendents of Government Printing, India and North-Western Provinces, the State Railway Departments, and the Government of India and local Government Secretariats. The Superintendent reports that a cheaper description of sealing-wax has recently been introduced for the use of the State Railway Department for the purpose of sealing wagons and parcels, and that candles will not, under the recent orders of Government, be supplied from the Stationery Stores after the present stock has been exhausted.

(10) There was a decrease under the head "water-marked paper" to be used with court fees stamps, for which the Superintendent is unable to account. He states, however, that it is probably owing to some of this paper having been formerly used for copies for which stamped paper is now provided.

(11) Under the head "Bally badami paper" there was an increase of Rs. 10,924. The Superintendent reports that the extended use of this paper represents a saving of Rs. 66,620 as compared with the cost of an equal description of English paper.

(12) There was an increase in the issues of "arsenicated paper" which is manufactured at the Cuttack jail. The Superintendent reports that this paper is coarse and inferior to Bally paper, as well as more costly, but as a branch of jail industry it is encouraged, and the profits appear in the jail accounts.

5. *Statement B.*—The expenditure shewn under the head "Issue of stationery" agrees with the totals of statement A, and requires no further remarks. There was again a decrease in the total charges for contingencies, amounting to Rs. 1,608. There was, however, an increase under all the heads of contingencies, except "postage" and "godown rent." The latter item was reduced from Rs. 10,201 in 1880-81 to Rs. 5,019 in 1881-82 in consequence of the rented godowns having been gradually given up during the year, with the exception of the godown in Hare Street which was vacated on 1st May 1882. A report on this subject was submitted to Government in the Board's letter No. 960B, dated 13th December 1881. One of the Custom House export sheds and several compartments in the new opium godowns were made over to the Superintendent of Stationery, from time to time during the year, but the manner in which the stock is scattered in several places and removed from close and constant supervision is very detrimental to the proper arrangement and distribution of the stores. The inconvenience of this arrangement was represented in the Board's letter No. 367B, dated 9th May last, and a proposal was made that a new building should be erected for the offices of the Collector of Calcutta and the Superintendent of Stamps and Stationery on the site at present occupied by the Stationery Office and by the premises in the occupation of Messrs. Moran and Co. This proposal was approved by Government in Government order No. 286T—F, dated 27th May 1882, and the Board were informed that the matter had been transferred to the Public Works Department

for further disposal. This proposal cannot, however, be carried out immediately, as the premises in the occupation of Messrs. Moran and Co. will not be vacated till the end of 1883. The decrease in the item of "postage" is attributed to the fact that the parcel post was resorted to in supplying small indents less frequently than during the previous year, and the increase in the other items of contingent charges is ascribed, generally, to the increase in the issues of stationery.

6. The cost of establishment increased by Rs. 447 owing chiefly to the annual increments drawn by some of the clerks in the Superintendent's office: there was no change in the staff during the year. An increase to the permanent staff of the Form Store Department has been sanctioned by Government in Government order No. 559F—T, dated 17th June 1882, at the extra cost noted in the margin, and an increase of Rs. 3 per month has been granted to one of the permanent sorters already employed in the Superintendent's office.

		Rs.	Rs.
1 Assistant Superintendent	...	30 to	40
1 Indent checker	...	20 ,,	30
1 Assistant accountant	...	20 ,,	30
2 Sorters at Rs. 15 each	...	30 ,,	30

7. The local purchases exceeded those of the previous year by Rs. 32,286. Under the head of "country articles" there was an increase of Rs. 29,038, and under the head of "English articles procured under contract" there was an increase of Rs. 20,321, while under the head of "English articles purchased in the markets" there was a decrease of Rs. 17,074. The difference between the figures (Rs. 10,09,539) shewn in this statement, representing the cost of English articles procured under contract, and those given on the margin of paragraph 2 above, is due to the fact that the former represent the value of articles received and paid for during the year irrespective of the year of contract, while the latter represent the value of the articles, the supply of which during the year was contracted for. The former figures also include supplies obtained on special orders from the contractors.

8. The sale of waste paper and other unserviceable articles exhibits a decrease of Rs. 2,921. The decrease is said to be due to the packing materials, canvas, hoops, &c., used by the contractors having been of an inferior kind to those received from the Secretary of State, and having consequently fetched a smaller price when sold. A portion of the material was also used for packing the stores sent out, and it is stated that the quantity of obsolete forms disposed of was greatly reduced. There was an increase of Rs. 1,896 in the sum realized from officers not entitled to free supplies of stationery.

9. *Statement C.*—This statement shews that the extended use of Bally badami paper represents a saving of Rs. 64,563 as compared with the price of an equal quantity of English printing paper of which it has taken the place against Rs. 54,668 in 1880-81; and that including brown cartridge paper, yellow paper, blotting paper, and envelopes, which were also supplied by the Bally Mills to some extent, the whole saving amounted to Rs. 66,620 against Rs. 59,617 in the previous year. The Superintendent of Stationery reports that the Bally Mills Co. have effected considerable improvements in the quality of the badami paper, and that the surface of the paper now manufactured is sufficiently smooth to allow of its being used to a greater extent for drafting purposes in the place of English paper. The Company have also, it is said, of late turned out a superior description of paper called "moonj paper," which is a very fair substitute for English white cartridge paper. The Superintendent of Stationery has recently ordered a supply of about 1,100 reams of this paper for the Aligurh Postal Press and the Superintendent of Government Printing, India; and if the Company can uniformly reduce the price (as different rates are at present charged) he reports that he will be able to bring this paper still more largely into use. The Superintendent has addressed the agents of the Bally Mills on the subject, and they have promised to revise the rates.

10. *Statement D.*—From this statement it would seem that the total expenditure for stationery within the Bengal Presidency amounted to Rs. 5,51,640 against Rs. 4,95,827 in 1880-81, shewing an increase of Rs. 55,813. It is, however, observed that this increase is more than accounted for by the increase (Rs. 1,05,389) in the issues to the Superintendent of Government Printing, Bengal, alone. Since the submission of his report the Superintendent

of Stationery has informed the Board that the sums entered in statement D, shewing the values of the issues to the Superintendent of Government Printing, Bengal, in each of the years 1880-81 and 1881-82 erroneously include the value of paper supplied to be made into bound books and envelopes, the price of which articles is again charged on issue against the local Governments to which they are supplied. It appears from a report from the Comptroller-General that during the years 1878-79 to 1880-81 the Government of Bengal has been overcharged Rs. 40,176 in this manner, and that, inclusive of the above amount a sum of Rs. 1,14,941 has been deducted from the total expenditure charged against that Government (as shewn by statement D) for 1881-82.

11. Omitting the value of the issues to the Superintendent of Printing, Bengal, a saving in the total expenditure amounting to Rs. 49,576 is apparent as compared with the figures of the previous year, and this may no doubt be partly attributed to the increased attention paid by local officers generally to the safe keeping and economy in the use of their stores, and to the greater care in the matter of checking indents by the Stationery Office. On this subject the Superintendent observes—

"On the whole the extent of increase in any one office is not so large as to call for special enquiry, and improvement has been exhibited in several offices in which the consumption was considered too great. Strict attention is paid to checking indents, and the moderate increase observable may be ascribed to ordinary causes; any additional work, such as the introduction of the road cess, or the institution of proceedings for the realization of public demands, would account for a corresponding larger consumption of forms and stationery, and as the Board considered that the enquiries last year had been too minute and indiscriminate, although a limit of increase was assumed, above which in all cases explanation was called for, I have made no further enquiries this year."

The concluding sentence of the above extract refers to the remarks in paragraph 15 of the Board's last annual report. The Superintendent, however, has placed an entirely mistaken construction on the orders of the Board, and he will be directed to call for explanations in future in all cases which appear to need enquiry.

12. In paragraph 16 of the Board's report for 1880-81 it was stated that a further report on the subject of the steps taken to prevent the vernacular establishments in the mofussil making use of stationery issued for English offices, would be called for from the Superintendent of Stationery, and in the Board's letter No. 310B, dated 24th April last, Government was informed that the subject would be noticed in this report. After full consideration of the question the Board see no reason to recommend a revision of the scale of allowances for country stationery in the different offices, as was suggested by the Superintendent, and they are of opinion that the only effectual means of checking waste and the improper use of English stationery by vernacular establishments, is to insist on the ministerial officer in charge of the stores in each office performing his duty in an efficient manner. To this end the Board have directed the issue of a circular to all district officers drawing their attention to the subject, and requiring them to exercise an effective supervision over the ministerial officer in charge of the stationery stores; and as a further means of securing a better observance of the rules they propose to call for a short annual report under a few specified heads from the different indenting officers.

13. In their letter No. 784B, dated 27th September 1881, the Board submitted their remarks on the report of the Committee appointed to consider the question of the transfer of the Form Store from the Stationery Office to the Presidency Jail, and the orders of Government on the subject are contained in Government order No. 214, dated 13th December 1881. The subject has been under the careful consideration of the Board during the year, and arrangements have been made, and a set of rules framed, which the Board hope will remove all cause of complaint on the part of the press or other departments concerned.

14. A report was submitted in Board's No. 876½B, dated 16th November 1881, on the subject of the check exercised over the due credit to Government of cash receipts in the Stationery Department. The necessary orders have since been issued with a view of improving the efficiency of the check in regard to the receipts on account of books and forms issued for sale by local officers, and the disposal of old and useless stores by the Superintendent of Stationery.

15. During the year under review the following proposals which were made in the Board's letter No. 242B of 13th September last, reporting on the subject of the reduction of the expenditure of the Stationery Department, were approved by the Lieutenant-Governor and brought into operation in Bengal. Under the orders of the Government of India marginally noted, it was directed that they should also be carried into practical effect generally in the North-Western Provinces and Oudh, Punjab, British Burmah, Assam, and the several departments of the Government of India, subject to special exceptions in certain cases—

No. 198, dated 17th January 1882, received with Government order No. 7, dated 30th idem.

(1) That the use of hand-made foolscap be entirely discontinued in all Government offices, the 15lb cream-wove (machine-made) writing paper being substituted for it.

(2) That no paper of larger size than foolscap be supplied to any office except in the Survey and Registration Departments, save with the special sanction of Government, and that a supply of double foolscap be kept for ordinary use when a size larger than foolscap is required.

(3) That the Superintendent of Government Printing, India, be requested to substitute to a great extent machine-made cream-wove papers of foolscap size for the blue machine-made and cream-wove papers of special makes and sizes which he now receives.

(4) That the use of all papers smaller in size than foolscap, except note-paper, be abandoned.

(5) That expensive Europe-bound blank-books be not in future supplied to any office without the special sanction of Government.

(6) That candles be struck out of the list of articles supplied from the Stationery Office.

(7) That all contingent charges on account of stationery (*e.g.* peon-books, ink and pencil erasers, ink-glasses, ink of various colours, pens, writing pads, gum bottles, &c.) purchased by public officers direct from the market be disallowed in future by the account officers concerned.

These rules are now being acted upon, and their full results in effecting a reduction in expenditure will be apparent in the ensuing year.

I have the honour to be,

SIR,

Your most obedient servant,

A. FORBES,

Secretary.

J. E. S.—Reg. No. 5287J—56—17-8-82.

A.
